

Division Capabilities

MIPEC Project Services

ABOUT THE DIVISION

MIPEC Project Services (MPS) is committed to managing all of your requirements throughout the entire range of construction phases.

With both client side and head contractor experience and capabilities, MPS provides a complete package to deliver whatever you require.

Although MPS currently operates out of Gladstone, Brisbane and Mackay, the division's geological footprint covers all of Queensland. MPS is strategically reviewing future expansion into other states based on preferred contractor status with current client portfolio.

The highly skilled and dedicated MPS team provides you with high end quality products and services, with a commitment to continual improvement and innovation and zero compromise to safety and company values.

This commitment is further demonstrated and reinforced through the implementation of the MIPEC Management System (MMS) in conjunction with International Organisation for Standardisation (ISO) and Australian / New Zealand (AS/NZS) Standard accreditations.

Current clients enjoy safer project solutions, unparalleled attention to detail and innovations that reduce life cycle costs, ensuring they receive the best possible return on their investments.
